

# C18 ACERT<sup>™</sup> **Industrial Engine** Tier 4 Interim/Stage IIIB

447-522 bkW/600-700 bhp @ 1800-1900 rpm

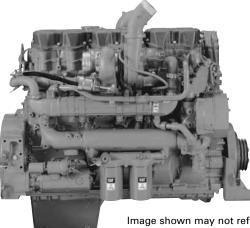

Image shown may not reflect actual engine configuration

# **CAT® ENGINE SPECIFICATIONS**

#### I-6, 4-Stroke-Cycle Diesel

Bore 145 mm (5.71 in)
Stroke
Displacement
Aspiration Turbocharged Aftercooled
Compression Ratio 16.0:1
Combustion System Direct Injection
Rotation (from flywheel end) Counterclockwise
Capacity for Liquids
Cooling System 26.9 L (28.4 U.S. qts)
Lube System
(refill)* 40-74 L (42.3-78.1 U.S. qts)
Engine Weight, Net Dry (Single Turbo)
(approximate) 1580 kg (3483 lbs)
*Capable of up to 500-hour oil change interval,

dependent on oil pan size, rating, application, operating conditions, and maintenance practices.

# **FEATURES**

#### Emissions

Designed to meet 2011 EPA (U.S.) Tier 4 Interim and EU Stage IIIB emissions requirements. Also expected to meet Japanese MLIT emissions requirements once available.

#### **Reliable, Quiet, and Durable Power**

World-class manufacturing capability and processes coupled with proven core engine designs assure reliability, quiet operation, and many hours of productive life.

#### **High Performance**

Equipped with simple and efficient turbocharger or series turbocharger for high power applications.

#### Fuel & Oil

Tier 4 Interim/Stage IIIB engines require Ultra Low Sulfur Diesel (ULSD) fuel containing a maximum of 15 ppm sulfur, and new oil formulations to support the new technology. Cat<sup>®</sup> engines are designed to accommodate B20 biofuel. Your Cat dealer can provide more information regarding fuel and oil.

#### **Broad Application Range**

Industry leading range of factory configurable ratings and options for agricultural, materialshandling, construction, mining, forestry, waste, and other industrial applications.

#### Package Size

Exceptional power density enables standardization across numerous applications. Multiple installation options minimize total package size.

#### Low-Cost Maintenance

Worldwide service delivers ease of maintenance and simplifies the servicing routine. Minimum 5000-hour diesel particulate filter ash service interval enables low cost maintenance. Capable of optimal oil change intervals of up to 500 hours, depending on rating, application, operating conditions, and maintenance practices. The S•O•S<sup>™</sup> program is available from your Cat dealer to determine oil change intervals and provide optimal performance.

#### Quality

Every Cat engine is manufactured to stringent standards in order to assure customer satisfaction.

#### World-class Product Support Offered Through **Global Cat Dealer Network**

- Scheduled maintenance, including S•O•S<sup>™</sup> sample
- Customer Support Agreements (CSA)
- Cat Extended Service Coverage (ESC)
- Superior dealer service network
- Extended dealer service network through the Cat Industrial Service Distributor (ISD) program

# C18 ACERT<sup>™</sup> Industrial Engine

Tier 4 Interim/Stage IIIB

447-522 bkW/600-700 bhp @ 1800-1900 rpm

# STANDARD ENGINE EQUIPMENT

#### Air Inlet System

**Turbocharged Aftercooled** 

#### **Control System**

Electronic control system, over-foam wiring harness, automatic altitude compensation, power compensated for fuel temperature, configurable software features, engine monitoring system SAE J1939 broadcast and control, integrated Electronic Control Unit (ECU) remote fan control

#### **Cooling System**

Vertical outlet thermostat housing, centrifugal water pump, guidance on cooling system design available to ensure machine reliability

#### **Exhaust System**

Clean Emissions Module (CEM) that includes Diesel Particulate Filter (DPF), Diesel Oxidation Catalyst (DOC), and Cat Regeneration System, optional exhaust outlet

#### Flywheels and Flywheel Housing

SAE 0 and SAE 1 flywheel housing

#### **Fuel System**

MEUI injection; primary fuel filter, secondary fuel filters, fuel transfer pump, electronic fuel priming

#### Lube System

Open crankcase ventilation system, oil cooler, oil filler, oil filter, oil dipstick, oil pump (gear driven), choice of sumps (front, rear, and center)

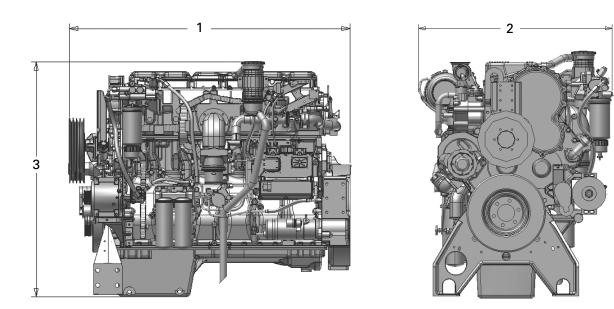

#### Power Take Off

SAE A, SAE B, SAE C drives available, engine power can also be taken from the front of the engine on some applications

#### General

Paint: Cat yellow; vibration damper; lifting eyes

# DIMENSIONS

(1) Length —1438 mm (56.6 in)

(2) Width — 943 mm (37.1 in)

(3) Height — 1239 mm (48.8 in)

#### Note: Final dimensions dependent on selected options

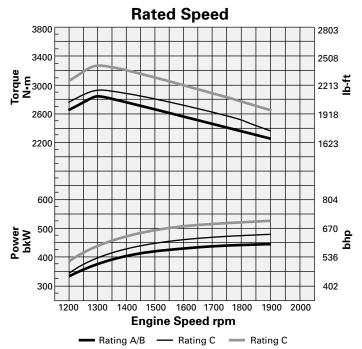

# C18 ACERT<sup>™</sup> Industrial Engine

Tier 4 Interim/Stage IIIB 447-522 bkW/600-700 bhp @ 1800-1900 rpm

## PERFORMANCE DATA — PRELIMINARY

Turbocharged Aftercooled — 1800-1900 rpm

Speed Range

				-		
Rating	Speed rpm	Peak Power bkW	Peak Power bhp	Speed rpm	Peak Torque N∙m	Peak Torque Ib-ft
A*	1900	447	600	1300	2811	2073
В	1900	447	600	1300	2811	2073
С	1900	470	630	1300	2951	2177
С	1900	522	700	1300	3279	2419

\*Altitude-limited

# **RATING DEFINITIONS AND CONDITIONS**

**IND-A (Continuous)** for heavy-duty service where the engine is operated at maximum power and speed up to 100% of the time without interruption or load cycling.

**IND-B** for service where power and/or speed are cyclic (time at full load not to exceed 80%).

**IND-C (Intermittent)** is the horsepower and speed capability of the engine where maximum power and/or speed are cyclic (time at full load not to exceed 50%).

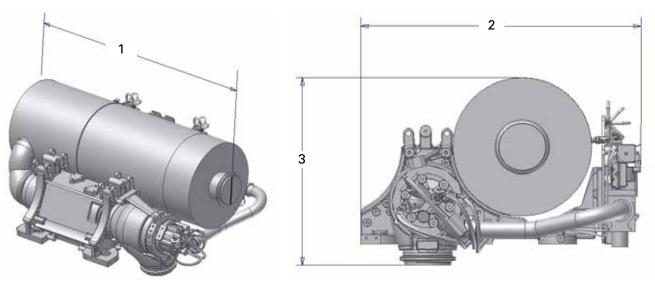

**Rating Conditions** are based on SAE J1995, inlet air standard conditions of 99 kPa (29.31 in Hg) dry barometer and 25°C (77°F) temperature. Performance measured using a standard fuel with fuel gravity of 35° API having a lower heating value of 42 780 kJ/kg (18,390 btu/lb) when used at 29°C (84.2°F) with a density of 838.9 g/L.

## AFTERTREATMENT CONFIGURATION

Images shown may not reflect actual aftertreatment.

# 330.2 mm (13 in) DIAMETER BASE CONFIGURATION SHOWN

Approximate Size and Weight (1) Length — 1053 mm (41.5 in) (2) Width — 779.8 mm (30.7 in) (3) Height — 451.3 mm (17.8 in) Weight — 180 kg (397 lbs)

Multiple customizable configuration options available

#### **CEM Options**

Base configuration includes DPF, DOC, and supporting structure

Standard configuration is also available, which includes DPF, DOC, muffler, and supporting structure. Contact your Cat dealer for additional information.

# AFTERTREATMENT FEATURES

**Regeneration:** Cat Regeneration System maximizes fuel efficiency during regeneration

**Flexibility**: Flexible regen options maximize uptime

Flex pipe connection kit with 90° rotatable elbows to attach to Cat Regeneration System Inlet

**Mounting:** Remote installation options provide OEM flexibility for many applications, including horizontal and vertical mounting

**Service**: Minimum 5000-hour diesel particulate filter ash service interval

Available in 12V or 24V systems

### STANDARD EMISSIONS CONTROL EQUIPMENT

Cat Regeneration System CEM: Clean Emissions Module DOC: Diesel Oxidation Catalyst **DPF**: Diesel Particulate Filter **NRS**: NOx Reduction System
